Before I begin yarn , I wan make we answer one question wey dey always worry me, Africa as a continent get about 54 Countries or there about, I mean for sub-Saharan part of the Continent and more than half of that are black nations, even in the Caribbean, there are black nations like Jamaica, Trinidad and Tobago, Haiti Etc. Why did Europeans only choose to name our Nation Niger-area?

## Chapter One

### “49 Sitting 99 Standing”

People how una dey? I hope say nothing do you as you don decide to read dis book so, I pray say you go read dis book with open mind and go absorb everything wey dey inside dis book. People wey just dey, wey no dey ask questions if dem see something wey dem no fit decode, wetin you wey dey read this book fit call those kind people? Knowledge and Wisdom comes from above but if you no open up your mind, you no go fit receive any of those, not at all. But before I begin I wan tell una say---

I am Ibibio by birth but a Neger on Paper because my mama born me put for Neger-area but make we no begin vibrate yet, by dat I mean cool down first make I explain, una know say before before long long time ago like dat we no bin dey call ourselves Neger-ians, na Oyingbo sidon for somewhere for Europe tear us up for “Africa” then one of dem women come talk say we be Negers, honestly, I no overstand why she come called us Negers, why only us for dat potion of “Africa” abi we bin look different from other black “Africans”? Or e get something wey make us stood out? Then wetin be dat ting abeg? And when she called us Negers, she bin referred to us as Negers in a friendly way? Me I feel say if she bin mean am in a friendly way, she for called us Nigros not Negers meaning say today our Nation name for bi Nigro-Ria bicos wen some Oyingbo dem say Nigro, some dey mean am to be “Black” in the sense of Black the colour but when some Oyingbo dem say Niger, dem dey always mean am in a derogatory disrespectful way.

E get somethings wey you go witness and you go bi like “Did dat just happen”? I no know if na only me notice am but as e don dey disturb me na im I say make I write about am too for dis book. Una know say if you wan search for something and wan really overstand the full meaning of dat ding wey you search, na Wikipedia dey really take out time to break some words down in details, so according to Wikipedia the name Nigeria (wey bi say e no really mean anything and for all the over 500 plus languages wey we dey yarn for dat Country, the word Nigeria no appear in any of dem) is a Country on the west coast of Africa with three main ethnic groups, the Yorubas, Hausas and Igbos. Dem push all of us put for one place forced the name Nigeria on us but dem forget say e get some other people for dat piece of land wey dey speak something other than Yoruba, Hausa or Igbo, dem forget the Efiks, Ibibios, Ijaws, Ishekiri etc na him make till today we no fit share the National cake equally, and as we dey talk am for 9ja “monkey still dey work and Baboon still dey chop” some people dey take lion shares while some people dey take cat shares, so wetin be the way forward? Make we forget Oyingbo, thou I know say the land Niger-area still belongs to Oyingbo, how we the Negers wey dey for the land go take move forward?

As wahala don dey start now everywhere for the nation, we dey sure say we still wan share the same apartments? the apartment don dey due for renovation tey but we no dey pay attention. We dey follow share bunk with cockroaches and rats and bandits and whatever. We dey sure say we still wan chop for the same plate? Why we no fit figure am out say dat marriage wey Lord Lugard bin officiate no dey work again? Say water don pass Garri? Why we no fit agree say e no dey work again, say we wan divorce? Abi we dey wait till e kom blow for our faces? Instead make we renovate the building so we go fit live inside am, we dey use the resources dey do some other yeye stuff wey no make sense at all, one day monkey go go market e no go return.

Una know say e get reason why people wey dey do well for 9ja, I mean well educated and talented people like me, e get reason why we bin jar for Naija. Make I take una go back small in time to dat first time wey I bin first land for Europe, I mean as a free person you know, I kom notice say for the house wey I bin stay for one small Village like dat somewhere in Germany wey dem dey call Niederrhein, for the whole one week wey bi seven days, I repeat seven whole days, I noticed say dem never took light for one single minute and water bin dey flow non-stop uninterrupted for Seven days, dem even run warm and cold water side by side concurrent for the house and I was like ..... bicos for Naija, anybody fit remember the last time you had non-stop uninterrupted supply of water and electricity for a whole week wey bi seven days? I also noticed say if we dey drive around town wit the man wey I bin kom stay with, for the trip around town, eke no dey for road and no single road block at every other intersection and junction, no police check up at every 100meters or so, we drove freely from one city to the next, no police check up, no road blocks, no harassment whatsoever and no pot holes for road, I was like, Ok! This is interesting! Na im bi the reason why I kom remain for dis country no bi say I bin kom here in search of greener pasture, hell no! I was okay in Naija, I had a good business going for me but I was so tired and fade up with the noises coming from power generators every night, every single house in the neighbourhood had a power generator, dis house go dey blow gen the other house go dey blow gen and if you dey drive for road at every kilometre eke go dey mount road block dey demand for tips and shit was really getting out of control, eke fit just murder you like dat if you no comply and nothing go happen, bicos people no get voice at all for Naija.

The people in Niger-area are not citizens, they are fellow country men and women, they have no right to anything, even sef they didn't vote on the constitution so there are no laws in place to protect the people, none. Those who were educated abroad who are aware of these situations will often come back home to Niger-area to prey on the ignorance of the poor countrymen and women, so the whole thing kom become the case of "confusion break bone".

The time wey we dey school as pikins, dem bin dey tell us say na we the Children be the leaders of tomorrow, now we dey tell our Children say na dem bi the leaders of tomorrow, when wey dat tomorrow go come? Will that tomorrow ever come? Well, I no know but wetin I know bi say, nobody go come dash us dat tomorrow wey we bin dey wait for, if we wan dat tomorrow, we must have to fight for am.

In 2020, Nigerian youths took to the street to ha-la say "e don do" many Naija people bin don scream for past taya, Fela bin scream die, Dele Giwa dem blow am up for saying "e don do" Ken saro wiwa dem hang am alongside him people bicos dem bin talk say dem no agree again. How many Naija people wey you know wey don pkai bicos dem bin no gree with how the Country is being run by thugs in uniform and agbadas?

2020 was only but a sneak view of wetin fit happen or rather wetin go happen to Niger-area in the near future and when that near future comes, e go dey worst past 2020, una remember dat documentary on channels television on the Nigerian police academy, an embarrassment big time. In 2020 people bin talk say na miracle say Naija youths fit revolt but I go tell una now say dat kind ding no dey, there is nothing like "Miracle" the people wey we voted into positions of power dey loot and steal with impunity because dem know say Naija people no go ever say anything and dat Naija people no get anything to say but you know why people for Naija no dey talk or never revolted by now? The reason bi say as much as dat country hard reach, person wey don visit Naija before go sabi say Naija na hard place, you have to be tough to survey for Naija, I no mean going to Abuja or Lagos to stay at a five-star hotel or some resort facility, I mean visit Naija and interact with Nigerians on the ground in the rural communities. Nigeria as a country is bad, I go tell una dis right now, forget all the fantasy wey you dey see on television and in Music videos, Naija the country is BAD I mean Bad, the corruption wey dey run dat country na wa but una sabi why Nigerians no dey complain? Una know why people Like Senator Akpabio will spent 50billion in a month and can't account for it yet Nigerians no complain, una know why? Because Nigerians are hardworking people, Nigerians no bi the kind people wey go sidon wait say government go come do everything for them or say government go come put food in their stomach, no! Dem rather believe say Jesus go come do dat than the Government. I know it's funny.

Nigerians bi those kind people wey go take nothing and turn it into something for themselves, Nigerians are able to make do with whatever they have without the aid of the government. The corrupt politicians sabi say e no matter how much dem loot, people no go complain, na im make dem dey continue to dey do am, na my opinion on the matter bi dat so make anybody no kom tell me anything abeg. Nigerians are very hard working, intelligent people, anytime wen I see people like Ghanaians dey disrespect Nigerians I dey always look dem and dey always tell dem say, "you wanna be a Nigerian but you will never be like us" na im make politicians dey loot the country up and down Naija people no dey talk and dem feel say Naija people na Mumu, dem no know say naija people dey look and watch and one day go bi one day, the day wey water go full garri and monkey go go market e no go return.

## Chapter 2

"I get Money before no bi property abeg!"

Truth! Really?

Truth sometimes fit dey very bitte to hear but the irony there bi say, people prefer hearing lies rather than truth bicos lies make dem people feel safe and secure even thou sometimes dem know say wetin dem dey hear na lie, dem no care as long as e make dem feel safe and happy, for instance, a man fit dey cheat on his wife with her best friend but as long as him dey buy the wife flowers and blings, she bi cool but deep inside she sabi say him dey fuck her best friend. Even social media platforms no wan make real people keep am real, dem wan make you post and create unreal content, contents on sex, nudity and racism whatever! Dat na how powerful lying and mind control is.

Lies told continuously will one day become truth, people go one day begin dey take am to bi the truth, if you tell people lies every day, you keep telling dem the same lie every single day, one day dem go believe your lies to be the truth because you don dey tell am for like a hundred years, na im make people no know the real history of Africa and the history of Africans, people only know African history starting from the slave trade era, people no know say Africa bin exist before slave trade bicos dem don dey tell people lies about Africa and her people for years and dem lies now don become the truth to some people concerning Africa. People forget say the Pyramid was built by Africans thou some Racist Europeans would rather attribute it to Aliens than to Africans which is laughable. They are also trying to take Kemet out of Africa and place it in the middle east lol! The same reason why dem dey teach people Egyptology but no Eurology, Americalogy, Asialogy whatever lol! Bicos dem wan continue to dey tell the lies wey dem mama papa bin don dey tell for hundreds of years about Africa, me I say "Thunder dey".

Long long time ago some people bin come up with the idea of God in our Image but the real question there bi say, is it Gods in our image abi na gods in their images? Common sense, wetin dictionary talk say common sense bi? Common sense na dat kind sense wey dem no dey teach for school, na dat sense wey God put for inside your head the time wey him/she bin create person, which mean to say every person wey dey waka for dis planet get common sense plenty, but wetin go happen wen we no use our common sense? Why we dey allow our common sense to dey inside our brains rot? Why bi say when we see something wey no tight, something wey no make sense at all instead make we use common sense decode am and maybe ask questions for simple explanation and for the sake of clarity, we go simple dey absorb am and follow am like zombies. Dat time wey I bi small pikin dem bin dey tell us say we must to follow and obey our elders but dem same elders bin come ask us say, since we were told to always obey the elders, what would you do if an elder tells you to put your fingers in a burning fire? Na there confusion come break bone, overtake go come overtake overtake.

People dey waste time worry about the devil and his/her wahala but me I don tell people say, the devil fit no just get una time at all at all, the devil fit just dey too busy doing some other shit than having una time, so dat wahala wey you get for life fit no get anything to do with the devil, e fit just bi say you no organise your life straight, e fit bi say e get something wey you no dey do right or maybe you just dey do too much e kom bi say you no allow your body make e relax and heal itself, maybe if you take a break and maybe sleep a whole day, maybe fast for like two days on water and vegetables, dat devil wey dey worry your life fit just leave you alone.

I personally feel say the devil get more important stuff wey him/she dey do, for instance blowing up some countries, fucking up the planet and shit like dat, the devil no get time for trivial little little stuff like making Africans poor and forcing dem to pack demself inside Church every day in search of deliverance and salvation, wahala dey lol! Make I explain how common sense dey fail us sometimes.

People wey dey go church, wetin be church? Church is nothing other than a building, make I break am down for you small small, your pastors dem know say you no dey like to dey use your common sense dey ask questions on some issues wey you suppose question dem purpose, so your pastors go design a building, construct it to look very beautiful and attractive, dem go place a cross on top or in front of that building and call it a church or a "House of God". Calling dat building a church is a sub liminary message, meaning say anytime you see dat building instead of you seeing a building, a brick-and-mortar structure, all you now see is a place of worship, a holy place, remember dat Fela's song "make you tell dat man for Ikoyi say uniform na cloth and na tailor dey sew am" immediately you see and go inside the building, it starts to play tricks on your mind, but I tell you if cross no bin dey on dat building, if dem no write church on dat structure, wetin you for see for bi just another "house" but bicos you don allow your common sense to die inside your skull you don allow dem people get into your head and control how you think and wetin you see and how you react to perceptions, na im make anytime you see a building like dat, you begin get confused and no Sabi how to act again, your mind begin play tricks on you.

If I a Naija man build a church, una know say churches plenty boku for Naija and I come place a painted image of Jesus wey look like Brad Pit ( No disrespect) in front of dat church, meanwhile dis na the same Jesus wey dem tell you say bin born for Jerusalem, na if you don ever go the "middle east" you go know how hot the "middle east" fit bi on a very sunny day so there is no way dat man wey dey hang in your parlour, in your living room and for your church could have been born in the "middle east" I talk dis bicos I sabi wetin dey happen to Oyingbo if dem expose themselves to the sun so make we get our fact tight and straight.

Dem also come write am for book say and I quote” the lord God say come let us make man in our own image and likeness and out of the dust of the earth he made man male and female and he breath into them” correct me if I mis-type. If you dey read dat kind thing and still no use your common sense ask questions, den wahala dey for your area I swear. God said to his/her colleagues make una kom make we make people, which mean to say dem Gods wey bin dey for dat meeting bin plenty and if dem bin make man in their images, Where the God wey make darky people in his/her image dey? Bicos the only God wey we dey see na the one wey resemble Tom Cruise ( No disrespect) which mean to say anytime when dem dey say Children of God, dem no dey talk about Darky people because to dem, darky people are not Children of God bicos darky people no look like God, na im make dem no dey treat darky people as humans. Look at am like dis, your bible no yarn say fishes, Chickens, Cows, Goats and all dem other creatures of this earth wey we dey wag for nutrients bi God dem pikins abi? Na im make if you dey kill dem for food you no dey get any empathy nor sympathy for dem creatures bicos you no see dem as children of God, bicos dem no resemble God in any way nor form. The same can be said for humans, remember when some people were enslaved and sold as products? When dem bin come Africa come kidnapped black people bicos black people no bin sabi wetin guns bi dat time? Children of God kidnapped, enslaved and sold other Children of God as products, why dem bin do dat you asked? Bicos dem Children of God wey dem bin sell no bi from the same God wey created the people wey sell dem, make I explain am better so you go better understand, children of God came to Africa and brought with dem the word of God, dem come tell the Africans say “for God so love the world that he gave his only begotten son to come die for una sin” dem come tell the Africans say dem bi sinners and since dem bi sinners dem suppose pray to God in Heaven make he forgive their sins bicos God in Heaven bi their papa and dat baba God love us him pikins very much. The Africans dem say okay, so you wan make we abandon our own native Gods, the Shango, the Anansa, The Arochukwu, the Ogun etc wey we sabi and wey resemble us dey follow your God wey no look like us abi? The foreign people say yes bicos una African spiritual Gods no bi better gods, dem bi “Voodoo” and say voodoo na very evil stuff and dat baba God wey sidon for heaven go cause yawa for any person head wey dey practice voodoo. Na im the Africans come gree-oo, dem begin dey invite the foreigners into dem houses and villages for Africa, dem no know say the foreigners dey write books for their own country dey tell dem country people say dem don discover some strange land and say the land name na Africa and say dem sef don even discover one river like dat and call am River Niger and Benue and say the animals wey dey roam around dat land bi savages wey dey eat dem pikins and dey kill twins so make dem sent some of their country women come make dem come show the African savages the way to salvation.

So small time come past na im the foreigners come begin dey steal everything, dem even steal the people add, as the Africans come say no we no go gree for una, na im dem foreigners comot guns, na just like dat na im evangelism come turn to inversion. Wen dem say the Lord god created man in his image, dem no dey talk about Africans bicos the God wey hang for churches in Africa no look like the Africans wey dey worship am, the part wey dey sad past bi say the Africans of today no even see am at all at all. Those wey see am, no fit question am at all and dey do like say, dem no see am.

Na coded messages like dat na im dem dey use dey deceive people, dem dey use am subdue people, use am take people`s identity away, dem dey use am turn people into sub humans so dem fit treat some people anyhow dem wan, na im make if you dey kill chickens, goats, cows and fishes to chop you no dey get any empathy for dem bicos you no see dem creatures as worth living, you no see dem as anything, to you as far as you are concern, you wan chop so you no sent at all.

So, if other humans no see you as anything, if dem no see you as fellow human, dem go treat you like an object too, dem go kill you, sell you, steal your lands, disrespect you bicos to dem, you no bi child of God bicos you no look like God. Word!

For where we live for Africa, churches full ground plenty but na we get wahala past every other people for this our planet, na we dem say dey suffer past, infact the faces of everything bad na black face dey represent am, Poverty, na black African child face wey flies dey crawl all over am dey represent am and red cross go dey use am beg for money, dat money sef the pikin with flies for face no go see am at all. Aids na Africa e plenty past now but before before na gay white people na dem bin dey get Aids bicos dem talk say dem no wan to dey hammer women again for the right place wey God bin create say make man pikin dey hammer, dem prefer say dem wan to dey hammer another man for yansh, say na man yansh na im sweet past woman toto, lol! To say corona virus bin ravish Africa the way wey dem bin predict, African face na im for bi the face of corona covid-19. Even sef despite say the virus no too worry people for Africa, some racist Oyingbo dey do like say na Africans dey transmit the virus past, sometimes I go see things I no go fit laugh bicos e don past laugh levels

Una remember dat time wey corona virus dey riot? The virus bin come expose so many things wey people bin dey cover up, things wey people bin dey pretend say e no dey but the virus come blow everything open, e bi like when one white racist is caught in the act of being a racist, other white people go dey condemn im racist behaviour, dem go shout say "racism has no place in the system" the football governing body will not tolerate racism and you as darky person go bi like "what?" you go just only shake your head and move on bicos you sabi say dat racist, dat 20year old man for dat stadium wey dey scream racist profanity towards dat African footballer, na person pikin im bi and im learn dat behaviour from someone bicos for where we from dem dey talk say "charity begins at home"

In 2020 during the George Floyd riot, some white people bin join the protest, some were caught on camera vandalising properties just to implicate the black people who were genuinely protesting police brutality. So, God in our image abi in their images, wetin you think? E don past time wey we go still dey do like Mumu, e don reach time to ask yourself say, who am I? did he sent his only begotten son to really come die for my sins? And if so, when did I commit dis sin? Why would an all-knowing God sacrifice him only son to save the world when he could just make the world stop sinning? Why him/she still dey allow the devil dey roam about the planet causing people to sin when he/she could just arrest the devil and lock him/her up for good? I taya-oooo.

Na true say common sense dem no dey teach am for school, either you make use of your common sense or you die trying like 50 would say

## Chapter 3

### Lion Born You, Why You Come Bi Like Goat?

For my place we dey talk say “wise people dey see from a distance but fools dey wait till the wahala come enter dem eye”

Every of us dey take freedom for granted so taaay we no even realise say we dey take am dey play. Some people feel say freedom na only when dem lock you up for some jail cell somewhere na im mean say dem don take your freedom away, dem forget say freedom, to be free dey deeper than eke locking you up somewhere, dem forget say freedom, to be free got to do with your state of mind bicos if you no dey free for your mind, your spirit and soul, on how you think and dem things wey you dey do, e mean say you no free at all, you dey prison, the only different bi say your own prison dey for outside , you no dey locked up for some secured building somewhere. Your own case worst pass person wey dey sidon for jail cell bicos people for inside prison get enough time to reflect on their bad behaviours to make peace with wetin carry dem go land for atuang in the first place, dem get all the time to look inside dem souls and re-examine their lives. But you dey waka about going from point A to point B with a closed fucked up mind. E get reason why your mind no dey free and must times people know dey sabi why dem minds no dey free, your mind no dey free bicos you don allow something or someone to take control of your life and dat thing or someone don Tigh your mind up very tight and e don throw the key away so you just dey like dat, you feel say you dey do the right thing but you no sabi say you no dey at all, say you just dey jones about like leaf wey air dey carry about. You dey make sense of wetin you dey read at all? If you no understand or better yet overstand wetin you dey read here, e mean say, me and you no dey on the same frequency at all, e mean say, me and you no dey for the same category at all but if you overstand wetin you dey read here, e mean say, you and I dey flow on the same frequency so continue reading, no wahala! Yawa no dey.

You know say dat freedom wey we dey yarn so, no bi say we just dey yarn about am, no, if you get dat freedom wey we dey talk, so many things suppose come with dat freedom, so many good things suppose follow that freedom come your way. If those good things no follow join, na im be say you get wahala, na im go bi dis wahalas wey I go tell you so bicos if your freedom no come with dem goodies, you go dey experience dis wahalas dem.

Make we talk am like dis, we wey dey for Africa or we for Naija infact Africa, dem people wey still dey practice our traditional way of life, I mean our traditional herbal practitioners, I go call dem like that. We for Africa we dey call those people voodoo doctors abi? Bicos Oyingbo don tell us say wetin dem dey practice dey bad and no dey accepted by “modern European Standard” abi? Sometimes if we no call dem Voodoo witch doctors, we go try to be nicer by calling dem “herbalist” but na the same thing bicos for my country once dem don labelled you herbalist e mean say you bi witch doctor, e mean say you dey do corny corny things for night, e mean say you dey pour drinks and dey always like to dey tie rapper. You get the picture abi? But you don ever ask yourself say, wetin these people dey practice wey make dem be practitioners? Wetin be their jobs? What is the job of a so called “voodoo priest”?

Who is a “witch doctor” you referred to dem as voodoo, witch doctors but you don ever pause for a moment to ask yourself say “wetin dis people dey do”? The voodoo priest, the herbal doctors and dem people wey you dey call witches and wizards wey you dey go church go ask your “man of god” make e bind dem in the name of “Jesus”? You don ever wonder wetin dem dey do or why you feel say dem bi so evil and needs Jesus's bindings?

Matter of history, who told you say dem voodoo priest, witch doctors, herbal doctors, witches and wizards were evil and bad in the first place? Who told you that? Where did you get that idea from?

For my place those people wey we dey refer to as herbal doctors, dem dey enter bush dey search for herbs and plants wey dem fit use cure ailments, herbs and plant wey dem fit use cure diseases. Dem dey do wetin Oyingbo dey call “research” dem dey enter bush go find leaves and herbs wey dem dey use dey do research on some problems to see how dem fit solve the problems, dem bin dey do am like dat for thousands of years before Christianity came in ships and labelled dem voodoo priest and bad evil doctors, dem come make us Africans not to patronise these our native medical practitioners simple bicos dem no get some fancy pepper from some fancy university hanging for inside dem living room, dem convinced us say the best way na to go “Hos-pital” make a “Doctor” write us prescription drugs, the same drugs wey dem use herbs and plant synthesis, but say na bicos the people wey dey synthesis those drugs dey wear white clothing dem no dey tie rapper, na im make their products bi the best but those ones wey our people dey do and dem dey do am the way wey we bin sabi without adding any other artificial chemical to it, is “bad”

Now ask yourself wetin bi the job of a Voodoo priest, an herbal doctor and a witch doctor and wetin bi the job of a doctor wey dey for hospital. Once you don ask and is able to answer dem questions, na dey your understanding or overstanding of freedom go begin, e mean say you don overstand wetin dey happen.

But now make I ask you something abeg, if I come your house come tell you say, you no get toilet wey you dey shit inside, meanwhile you get pit toilet for back yard, dat thing wey we bin dey call latrine dat time, wey dem dey go dig am like some meters away from the main residential building but then me I come see say you no dey shit inside house, I come get the audacity to tell you say you no get toilet, say make we help you create toilet for inside house for you, wetin you go think say dey worry me for head?

## Chapter4

### “Yanka dey sleep, Shit dey smell”

All dis government no dey negotiate with terrorist case e no concern Naija Government at all, dem dey negotiate like say tomorrow no go come again, na im make dem kidnappers dey go schools go dey pack the whole school, I mean like 300 students I swear, I never in my life hear say kidnappers don kidnap a whole football stadium full of spectators, na only for Naija, so me I come ask say, where wey dem dey keep all these people when dem kidnap dem finish? Lol! I know say e no bi laughing matter but it's funny bicos if you kidnap 300 people, that's like a whole village, you go need place I mean a large place to keep dem and the place go dey hidden enough so dat eke and Mba no go fit find una, and you go need food, lots of foods to feed 300 hungry Children bicos when pikin dem hungry, you no go fit control their cries. So, who dey kidnap who? For my place we dey talk say na something makes grayfish bend.

Now wetin bi “understanding”? How you fit take appreciate someone wey don do something nice? Understanding and appreciating other people, wetin bi dat? Respect, wetin bi dat? Some people dey wey bi say if you say something to dem, dem no go understand, dem go begin dey act out, e get some people wey bi say you no fit point their mistake out to dem, you no fit tell those kind people say “hey my guy, dat ting wey you dey do no set at all, na like dis you suppose do am” if you try correct dem, dem go pick a fight with you, dem go start to dey accuse you say wetter you feel say you sabi something pass dem?

Those kind people no know say to correct someone when you see am make mistake na the best thing wey you fit do to dat person, e no mean say you wan show body or anything like dat, it's just a simple way of saying “anything worth doing is worth doing right” na so dem bin dey teach us for school the time wey we dey go school.

The best thing person fit do for me na to tell me say am making a mistake if am in the process of making that mistake bicos if you dey make mistake e mean say dat thing wey you dey do, you no dey do am right, e no dey tight and if person no point am out to you, you go dey continue dey make dat mistake thinking say you dey do the right thing.

I know say e dey very hard on some people to take correction, for instance, if you don ever try telling your wife say dat cloth wey she dey wear dey make am appear fat and ugly? Or tell your girlfriend say she get mouth odour? You don ever try telling your boyfriend say him get body odour? If you don try those things you go know say e dey always dey very hard on some people to accept correction but dem forget say, na only you the closes person to them go fit dey bold and honest enough to tell dem the truth, your wife or girlfriend forget say an outsider no go ever tell am openly say her mouth dey smell, she go dey pretend but talk behind her back later to the rest of the colleagues. Only you the man wey live with am for the same house go fit tell am the truth but she go vex for you if you do, so truth and understanding and appreciation dey always dey very hard to accept.

Things dey happen wey sometimes go make you really want to slap somebody, when you see people act a fool wen dem no suppose act a fool, you begin dey wonder wetin dey happen for inside their heads, people wey dem don brainwashed their brains so tay, dem know sabi wetin dem suppose believe again, dem don mind-control dem so tay, e dey make dem act stupid, for instance, a typical Naija person`s mind don dey so fucked up due to the mind-control and indoctrination wey him/she don go through right from the time wen him/she comot for im mama belle, dem don brainwashed Naija people in so many ways wey dem no even sabi, na im make the same Naija people wey dey complain of corruption, go still the vote the same corrupt politicians back into office with no second thought. The whole mind control ting started in the churches, those of una wey dey go Catholic church, before dem accept you into the church, the priest go pour water for your head, change your native spiritual name, your name wey define who you bi as a person, your name wey your mama and papa gave you, your name wey carry power in the sound, simple bicos dem no fit pronounce am, him go change your name to a European name all in the pretext say dem dey give you saint`s name, lol! Saint name ke? We call am “White Supremacy” White Saviour Complex and that`s “Racism” period.

Dem brainwashed you, feed things wey no make sense into your head, dem tell you say your native name is bad, dem say the way wey you think no set, make you dey think the way wey dem want make you think bicos you bi primitive person, dem tell you say your medical healers bi voodoo doctors and say dat kind thing no get place for inside Christianity, these na the same people wey bin capture your ancestors put for ships carry go sell somewhere all in the name of dat same God wey dem wan make you dey worship and I sure say for inside the slave ships, your ancestors were praying to that God to come help and deliver them while the slave masters, traders and ship captains were also praying to that same God for a safe passage to the Americas. Wahala dey.

Your pastors for your new age Pentecostal churches go dey the other side dey preach prosperity and tithe giving, some of them even carry jerry coil for head, dem go dey sell you anointing protective oils but go dey waka about with heavy bodied body guards. 49 sitting, 99 standing.

None of dem dey preach tell you say, to obtain wealth say you must to work a lil harder and really focus on dem things wey you wan archive in life, no! Dem go tell you say you no need to work hard at all, say your divine intervention dey wait you next month, say God go come bring you wealth and prosperity as long as you dey sow your tithe and dey bring your hard earn money come church come give dem make dem dey use am buy private jets and build porch houses while you the church goer still live in the slums and in poverty, but no worry, as long as you belief in "white Jesus" Jesus wey no look like you at all, as long as you put your trust in the Lord, the God who did not create you in his own image but in the image of a Gorilla, lol! Na im make people dey throw bananas at African players on the football pitch bicos wetin dem dey see na Monkeys playing football and being very good at it, infact dem monkeys are very good at everything wey dem dey do, so taaay, everything wey dem monkeys dem invent, some people go steal it from dem and put their names on it, everything invented by the monkeys, people go copy am, from music to baggy jeans to head ties and dem don even create body cream wey fit make people look and have the skin tone of dem monkeys but nobody really wan be monkeys, everybody wanna be a monkey but nobody wanna be a monkey. lol!

Dem don brainwashed us so taaay if you bi hard working Naija Ninja, Ninja wey dey earn im living the legal way, people no go appreciate you in anyway, infact you bi poor man for their levels but if you dey earn your money for corny corny ways, dem go crown you chief, elect you into position of authority, make you Chairman at every church occasion, infact catholic church go make you a knight, when you die dem fit make you saint sef if care is not taken, lol! If you dey make your money for ways wey people no understand but as long as you dey spray for burial and wedding ceremonies, Eke and Udoh go dey guard you everywhere, you go bi Baba Alaye for area, dem forget say you no bi anything other than a common "Criminal"

Naija people prefer a criminal over a hard-working countryman and woman wey dey earn im living the legal and positive way, na im make for Naija, school teachers, lecturers and hand workers are among the poorest of the poor in the community, but yahoo yahoo boys and illiterate politicians bi some of the wealthiest, like Sound Sultan bin talk am say “For dis Asylum, na illiterates dey rule”

Make I tell you how the mind control and indoctrination don affect some of our people, I go use a typical yahoo boy make an example.

A typical yahoo boy dey smart enough to bi able to talk people into giving him/her their money without guns and all dat but instead make him use the money do something positive to maybe the community where im from, im go go social media go dey snitch on imself, e go dey buy expensive European designers outfits, e go dey buy fast cars dey display dem on social media bicos the mindset of a typical Nigerian is to show the next Nigerian say im get money past am “Suffering and Smiling” isn't that plain dumb?

A yahoo boy wey live for Ogbodo Oyingbo go dey steal from the Oyingbo's and go dey display the wealth for social media make the Oyingbo's wey im stole from see, isn't dat stupid? Im just feel too arrogant to see say people dey observe am, im no know say, eke for that Ogbodo Oyingbo country fit the observe am and dat one day one day monkey go go market e no go return. You dey flash millions on social media but you no bi CEO of any company, you think say people no go ask questions?

Okay make we talk say the Yahoo boy get the right to steal people money, let's assume na im right to dey con people out of their hard earn money, let's just say its legal for the Naija Ninja to the steal from non-Nigerians, we all sabi say Naija the country as a whole no dey tight at the moment, we all know say people eye dey red for Naija bicos things no just set the way wey dem suppose set for countrymen and women, na im make every Naija person don turn Ninja one way or the other, as tough and un-tide as Naija bi, the Yahoo boy sabi say people dey im country wey no see food wag in a day, im sabi say graduates full ground for Naija wey no get jobs, no bi say dem no wan work-oo but jobs no just dey make man pikin do, na im make you go see good looking guys and girls go dey full internet café and everybody for naija won bi politician or assistant to this person and dat person go bi assistant to the other person and the other person na assistant to the next person, so on and on. Naija case bi like “Carpenter wey no get chair for house or tailor pikin wey no get cloth to wear”

Naija youths are very talented and productive i.e., if dey give dem the opportunity to explore their capabilities, dem no one dey sleep with one eye close the other one open, dem no wan dey jump at every sound dem hear behind.

But some yahoo boys after dem don steal the money, instead wey dem go go their impoverish villages go spread the love, dem go use the money dey do stupid and dumb shit.

E dey always dey funny to me when I see Africans spend their money on things like Gucci, Hennesy, I mean all the expensive European named brands but these na the same Africans wey dey complain of racism yet dem go carry their money go give the same racist, dem no sabi say na their money na im dey make the racist more richer and even more powerful to be able to carry on being racist, if I was to tell a Naija yahoo boy say, dat expensive European brand wey you dey wear instead of patronising your local tailor for Naija, that expensive cloths, the owner of that brand no like you as an African, dem no wan see you in their country, dat infact the only time wen dem like you na when you dey spend your money foolishly like an ignorant “Nigger” bicos to dem, that’s exactly what you are “Ignorant Nigger” the Yahoo boy no for believe me.

E get Naija people wey dey design cloths, we get people for Naija wey dey make shoes, we even get person wey dey assemble cars for Naija, why you no used dat your ill-gotten money support dem? Instead, you wan support people wey you no sabi, the one wey no give a shit about you as a black man. See, having a degree from some Fancy named university no mean say you are educated, bicos you go someplace go get some certified paper say you are educated no mean say you have wisdom bicos to say you get wisdom and knowledge and dey do yahoo yahoo, eke no for come after you at all, you for play the game, make some money and comot for the game Jejee, hands clean, but bicos dem don brainwashed you right from birth you no sabi wetin or how to think for yourself any longer. Make I ask you yahoo boy dis, as you dey show your ill-gotten wealth on social media, wetin you dey think? You feel say people no dey see your post? You feel say the people wey you stole the money from no get feelings and dem no dey angry? In the words of Rick Sanchez “School is not a place for smart people” support your local manufacturers so dat your days may be long on the earth. Lol!

## Chapter 5

### "B.O.D.M.A.S"

No bi only Yahoo boys dey carry their ill-gotten money go waste on foreign goods instead make dem support our local producers, why bi say everything wey we dey use must bi imported from either Europe or America or God knows where but it must not bi made in Africa else we no go touch am bicos to us, made locally in Africa products no dey good enough but made in Germany or somewhere else is the best, "White saviour complex" or rather inferiority complex.

Why we no dey support locally made stuff? Why do we prefer imported condemned goods from God knows where? We forget say even if our local manufacturers no get am right the first two three years, if we keep supporting dem and giving dem our money, e go make dem carry out more research and come up with ways to better the product bicos dem dey talk say "Rome was not built in a day" but if you say no, say you wan the one where from Oyingbo man land, you go carry dat your money go give dem and dem go sent you the rejected products wey dem don reject for their country, dem go sent am go the so called third world bicos dem know say, una no get any law in place wey go check and hold dem accountable if any accident occurs due to the sub-standard product wey dem send give una and even if laws dey for ground, dem sabi say the politicians wey suppose follow and put dem laws into practice dey on their payroll, so again e come be like the case of "double wahala for dead body"

The same reason wey go make people were bin go church go swear say for better or for worst say dem go always love each other only to find themselves cheating on each other, wetin bi dat sef? Why you go swear your life give someone just to make yourself and dat person happy for a very short period of time but unhappy for the rest of una lives? Why you go tell someone say without dat person say you no fit live, say without am your life no dey complete but after like a year or two, your life turns miserable, and when una lives turn go south una begin dey cheat on each other, wetin? Una go go church go put each other ring for finger, go celebrate the movement of Planet Saturn and its rings and shit like dat thinking say una dey marry simple bicos una wan copy wetin Oyingbo dey do, then after a year you no find dat person attractive anymore, you begin dey sleep with another person, and you dey go church, you called yourself a believer, rat talk say "im no get wahala with the person wey kill am but im get wahala with the bystander wey the point the killer to am"

Wen una wan talk about sin, una no go mention infidelity as the worst sin wey Christians dey commit, una go dey find fictional devil to blame for everything. Marriage and relationships na by force? Dem forced you make you marry someone? The time wey you marry dat person you no bin think say one day dat person go grow old and no go dey attractive again like how you bin find am 40 or 50 years prior? You no bin think say one day dat pussy go wuwu? You no bin know say one day him no go fit get am up again? And say one day teeth go begin dey fall out? Lol!

Person go meet some other person and after like a year or some months dem got married, dem commit their lives to living together, me I disagree, my take bi say, before you decide say you wan marry person, take your time know dat person well, know the ups and down of that person, make sure say you and that person don live together first for like a year or two bicos if una no live together for a while una no go really see the true colours of the person wey una wan marry, you no go know how im mess dey smell or how im shit dey stink, hear as him dey piss standing up, do you like wetin you hear? See as she dey spit for street, you still wan kiss dat mouth? You sabi say, dat fine babe wey dey visit you dey shit and her shit dey smell? how she dey look after waking up without makeups, make dat person see you in your natural habitat and you see am in her/his natural habitat too, no bi say una go just dey meet once in a while when she don put make-up for face or him don wear suit and tie, I mean you get to know dat person well well before una begin talk about marriage. No force yourself enter train wey you no go fit get off bicos wen dat train begin move, e go dey very hard to stop am for you to get off. After una don live together and don see the positive and negative side of each other, una go then decide if una still wan spend the rest of una lives with each other, na dat time you fit go church go swear say you want spend the rest of your life in misery with dat person but make you no forget say, dat na the only Virginia wey you go dey have sex with for the rest of your life and the only penis wey go dey enter your Virginia for the rest of your life. So, make dat decision carefully and wisely and sign dat piece of paper wey una dey sign to make una happy carefully, no bi say, una go borrow money wey una no get, take am all do party bicos una wan show people say una don marry but after a year or two una come discover say una no dey compatible with each other.

Make I tell una now, boyfriend/girlfriend case na different matter bicos una no dey committed to anything, una no owe any of una anything, na only friends na im una bi and friends fits get other friends, lol! But even so, for the duration of time wey una bi friends, if na friends with benefits, una suppose at least dey loyal to each other.

After una don bring children into the world una come talk say una want break up, una sabi wetin dat break ups dey do to dem children? Grownups are very selfish sometimes, especially women, women no dey think the negative effect wey their decision sometimes dey get on their children bicos dem know at the end of the day, the children go live with them, dem no dey see past that. You made the decision to marry a man and now you wan back out? You wan break the bound between the papa and the pikins bicos according to some women “they are not happy in the union” seriously? For pidgin we go say “Yanka dey sleep, wahala go wake am up”

Speaking of Pidgin. Dis book wey you dey read so, the webpage [www.darkydey.com](http://www.darkydey.com) and church of wisdom are a division and trademarks of Church of Wisdom. Broadcasting and publishing are done in Pidgin English which is widely spoken in our beloved nation Naija, I figure by now you go don sabi wetin Naija mean, if you never do, then dis book no bi for you, am sorry. What better way to get our message across to as much Naija people as possible other than in a language well-spoken and understood by the people of Naija, we no come here to sugar coat anything, whatever you read and listen to on the podcast, is as raw as could it bicos truth dey bitte to listen to.

Dat being said, why Pidgin English you fit ask? I go tell una like dis, Africans are or should not be speaking English as official language, English is the official language of the Anglo people of Northern Europe, it should not have been imposed and made mandatory on the whole planet, remember dat supremacy mentality thing wey I bin yarn about? dat na case for other people to debate not me.
